“Guarda i progetti, le diverse lavorazioni

Fabio Mascheroni

*“Look at these projects, the workmanship, and
observe every detail – now let’s put it all together, and
you’ll find passion, care, and design.
Only then will you understand that you can’t live without them.”*

Fabio Mascheroni

“Ancora oggi, dopo tanti anni.”

“Even today, after all these years.”

Ancora oggi, dopo tanti anni, nella nostra azienda seguiamo gli insegnamenti che sono il frutto dell'esperienza di ogni giorno, l'essenza di una cultura del lavoro che si impara “con il fare quotidiano”, usando le mani e il cuore, una conoscenza che deve saper rispondere a regole ben precise in termini di qualità e perfezione.

Dopo anni di collaborazioni con le più importanti aziende del mobile, della moda e del design, abbiamo sviluppato la nostra esperienza nell'haute couture, unendo così il nostro know how alle tecniche di lavorazioni tradizionali del mobile. Nelle nostre creazioni usiamo moltissimo gli strumenti più antichi al mondo, le mani; mani che si muovono incessantemente e compiono gesti ritmati, che cuciono con precisione estrema, che rivoltano il cuoio o la pelle, ma che portano ad una perfezione che sfiora l'arte. Mani che prendono ordini da un cuore che vive della passione per il proprio lavoro, volto alla ricerca del bello in assoluto, oggi come ieri. Un insieme di persone unite da un interesse comune, il saper fare, ognuno nel proprio ruolo, per il bene di tutti; uomini e donne che credono nell'azienda e sanno che la propria opera è un tassello indispensabile alla crescita comune e la qualità che offriamo è il frutto della loro qualità interiore.

Proprio come Fabio Mascheroni afferma: “La qualità nasce dai gesti di ognuno di noi” e da quell'atmosfera di serenità che solo un team forte e coeso può trasmettere.

Even today, after decades of experience, our company is still following and enhancing the expertise and skills we have gained day in and day out. This is the essence of a work culture based on learning from “everyday experience”, using our hands and our hearts, building a knowhow that meets specific rules regarding quality and perfection. After years of work with the world's most important furniture, fashion, and design companies, we have developed our own experience in haute couture, combining our knowhow with traditional furniture workmanship and crafting.

Our creations arise from the use of bygone tools – our hands – constantly moving in rhythmic movements, stitching with the utmost precision, flipping the leather and the thick leather over and over again, leading to a level of perfection that comes close to art.

These are hands ruled by a heart that lives within a true passion for their work, pursuing absolute beauty, be it yesterday or today. This is also a group of people brought together by a common love – artisan expertise – each with their own role, with the common good as a goal: men and women who believe in this Company and know that their work is a fundamental part of its growth, all aware that the quality we offer is the fruit of their caliber.

Just as Fabio Mascheroni highlights, “Quality is based on our each and every action”, and this aura can be expressed only when you have a strong, tight-knit team of great people.

“Eleganza, artigianalità e originalità.”

“Elegant, artisan, and original.”

Nei progetti di Ludovica Mascheroni si uniscono eleganza, artigianalità e originalità, in un approccio sartoriale al progetto liberamente declinato negli accostamenti cromatici, nei materiali e nell'esperienza delle soluzioni proposte.

In Ludovica Mascheroni's projects, elegance, artisan craftsmanship and originality all come together in a tailor-made approach that is freely expressed in the pairing of chromatic tones, materials, and the experience offered by these solutions.

**“Ancora oggi
l’uso di certi
strumenti
è indispensabile.
Come
l’esperienza.”**

“Even today, the use of
certain tools is fundamental.
Like experience.”

“La bellezza dei gesti.”

“The beauty of movements.”

Ci sono gesti che comunicano fin dalla prima occhiata la qualità delle lavorazioni, come un punto di cucitura, un intreccio della pelle e un taglio preciso. Le creazioni Ludovica Mascheroni affondano le radici nella tradizione del mobile lavorato e rifinito a mano, una tradizione che racconta l'eccellenza della propria storia.

There are movements that communicate – from the moment you set your eyes on them – the quality of the workmanship: stitching, weaving of the leather, and that precise cut. Ludovica Mascheroni creations dig their roots deep into the tradition of handmade and hand-finished furnishing, a tradition that expresses the excellence behind our history.

“Il design?
L’abbiamo
nella pelle.”

“Design? We’ve got the leather.”

La pelle pregiata è la nostra passione, morbida, naturale, di origine bovina e ovina a pieno fiore oltre a pellame esotico come coccodrillo, struzzo e galuchat, accuratamente selezionati, trattati con concie vegetali e all’anilina con molte fasi di lavorazioni, disponibili in diversi colori.

The finest leather is our passion – soft, natural, cattle or sheep hide, full grain, or even more exotic skins like crocodile, ostrich, and galuchat – all carefully selected, treated with vegetable-based and aniline tanning, requiring numerous steps and offered in vast array of colours.

“Una scelta di stile: la personalizzazione.”

“A question of style: personalization.”

Saper offrire una vasta gamma di pellami attentamente selezionati è un talento che viene da un modo particolare di pensare, di vedere, di capire ed immaginare l'arredamento. Nel nostro caveau oltre alle pelli ci sono anche la nostra cultura e il nostro stile; qui potete scegliere, tocca a voi.

Knowing how to offer a wide range of carefully selected leather is an expertise that comes from a unique way of thinking, seeing, understanding, and imagining furniture and furnishings. In our personal vault, in addition to unparalleled leather, you will also find our culture and style – where you can choose. It's all up to you.

“Il custom made per noi non è un problema, ma un’opportunità.”

“Custom made isn’t a problem for us - it’s an opportunity.”

Un arredamento su misura è il sogno di molti; Ludovica Mascheroni è in grado di progettare e realizzare mobili e arredi personalizzati sostenuti da disegni tecnici che includono ogni dettaglio che si desidera.

Questa produzione artigianale è la scelta migliore per ambienti di lusso.

“Il tempo e la bellezza.”

“Time and beauty.”

“La bellezza è l'unica cosa contro cui la forza del tempo sia vana. Le filosofie si disgregano come la sabbia, le credenze si succedono l'una all'altra, ma ciò che è bello è una gioia per tutte le stagioni, e un possesso per tutta l'eternità.”

Oscar Wilde

“Beauty is the only thing that time cannot harm. Philosophies fall away like sand, and creeds follow one another; but what is beautiful is a joy for all seasons and a possession for all eternity.”

“L’equilibrio delle forme.”

“Nuove emozioni.”

“New emotions.”

Certi momenti li abbiamo vissuti tante volte, eppure improvvisamente ci sembrano nuovi e straordinari. Forse perchè li percepiamo più intensamente, perchè i nostri sensi sono più ricettivi.

Vivere in una casa arredata Ludovica Mascheroni è uno di questi momenti. È il momento in cui sostituiamo il consueto con l'eccezionale, sentendo subito le nuove emozioni che sanno trasmettere questi arredi.

There are certain moments we have experienced a number of times in life, yet now they suddenly seem new and extraordinary. We pay a great deal of attention to the quality of our creations – for the seats of padded furnishings we use biconvex springs, hand strung and attached to the wood frame, as well as vegetable horsehair for the lining. “Ogni nostro mobile è un pezzo unico.”

“Each and every furnishing piece is one-of-a-kind.”

Proprio così, ogni arredamento che produciamo è un unicum, ogni progetto e ogni mobile viene costruito di volta in volta a seconda delle esigenze di chi chiede di personalizzare il suo spazio abitativo. L'uomo non ha bisogno di mobili in senso generale, ma di arredi che assolvono a determinate funzioni ed esigenze.

And that's true. Each furniture piece we create is truly unique, each project and each furnishing piece is built based on the needs of those who want to personalize their interiors. As people, we don't need really furnishings in the general sense, but we want furnishings that meet specific functions and needs.

Contemporary architecture is ideal for this one-of-a-kind panorama. The large windows offer an extraordinary feeling to the interior, as if you were outside and inside at the same time.

“Spirito contemporaneo.”

“Contemporary Style.”

Un progetto disinvolto per vivere la casa all'insegna del glamour; alle pareti l'ecclettica boiserie imbottita vede diversi tessuti mixati e alternati in piena libertà compositiva e i pannelli imbottiti presentano rivestimenti dalle forme diverse. Ma il piacere di arredare prevale su tutto.

A nonchalant project for experiencing a home full of glamour – the eclectic padded wainscoting with a beautiful mix of fabrics and materials, freely designed and laid out, along with the padded panels offering an array of different shapes. This is where our love for fine furnishings takes centre stage.

La lavorazione capitonné si basa sull'esperienza di mani esperte, capaci di lavorare la pelle esaltandone la morbidezza; si tratta di creare una serie di "cuscinetti" romboidali accostati uno all'altro e intervallati da bottoni rivestiti in pelle. Solo la precisione guidata dall'esperienza permette di realizzare il capitonné, un segno distintivo dei mobili di ieri più che mai attuale.

Button tufting workmanship is based on the experience of expert hands, working the leather and enhancing its softness – it is all about creating a series of rhomboid "small pillows" placed side-by-side and interspersed with leather-covered buttons. Only precision guided by experience can lead to the creation of these button-tufted masterpieces – a hallmark of the furniture of yesteryear, yet more modern than ever.

“Tanta esperienza,

“Years of experience, a good

È questa la ricetta che usiamo per cucire a mano i rivestimenti dei mobili destinati ad arredare le case più belle del mondo, un'abilità acquisita in tanti anni di lavoro. Un inestimabile patrimonio aziendale di tecniche e conoscenze che vengono tramandate di generazione in generazione, oggi come ieri in ogni nostro prodotto.

This is the recipe that we use to hand-stitch the coverings and padding of furnishings that are destined to enhance the world's most beautiful abodes – a skill gained over years of work. “La cabina armadio.”

“The Walk in closet.”

Preziosa ed accurata nella lavorazione dei materiali come nel progetto, Ludovica Mascheroni presenta una soluzione originale di cabina armadio con la struttura rivestita in pelle e tessuto. Un progetto che racconta la vita della stanza e la sua capacità di contenere e mantenere tutto in ordine.

Fine, precise workmanship of the materials is paired with great design – here Ludovica Mascheroni offers a unique solution for the walk-in closet, with the frame upholstered in leather and fabric. This project expresses this beautiful interior and exactly how we can stylishly store and keep everything in order.

“Il rispetto dell’unicità.”

“Respect for uniqueness.”

Basta guardare le cassettiere della cabina armadio rivestite in pelle per cogliere immediatamente quanta cura e passione sono state poste nel realizzarle. Sono i dettagli voluti da Ludovica Mascheroni che valorizzano un prodotto e sottolineano l’equilibrio instabile tra artigianalità e produzione seriale.

All it takes is one look at the drawer units of the walk-in closet, beautifully upholstered in leather, in order to immediately grasp just how much care and passion have been put into creating them. These details are fundamental for Ludovica Mascheroni, enhancing a product and emphasizing the unstable balance between true craftsmanship and mass production.

“...troverai la passione,

“...you will find passion, care, and design.”

Dice Fabio Mascheroni parlando con un collaboratore: “Guarda i progetti, le diverse lavorazioni e osserva i dettagli; adesso mettili insieme, troverai la passione, la cura, il design. Solo allora capirai che non ne puoi fare a meno.” Ancora oggi, a distanza di tanti anni, per aiutare i collaboratori a crescere con la passione per il lavoro, Fabio Mascheroni ripete loro questa frase.

Fabio Mascheroni, when talking with a colleague, said: “Look at these projects, the workmanship, and observe every detail – now let’s put it all together, and you’ll find passion, care, and design. Only then will you understand that you can’t live without them.”

Even today, after so many years, to help colleagues and co-workers grow with the right passion for their job, Fabio Mascheroni often repeats this idea.

Il sommier

The bed base

Il sommier è l'ideale per coloro che amano il letto semplice e funzionale e l'arredo libero da schemi; il sommier, non avendo la testata, è posizionabile come si vuole nel locale, sotto un grande arazzo oppure sotto la finestra. E' una soluzione molto impiegata negli hotel.

The bed base is ideal for those who love a simple and practical bed, along with furnishings that break the common mould; the bed base, seeing that it doesn't have a headboard, can be positioned anywhere you want in the room, beneath a large tapestry or even below the window. This is a solution that is used a great deal by hotels.

Le pelli
The leathers

A close-up, black and white photograph showing a hand using a compass and a sharp tool to mark a design on a textured surface. The hand is positioned at the top center, with the index finger holding the sharp tool. The compass is held in the other hand, with one leg touching the surface and the other leg held above it. The surface is a light-colored, textured material, possibly leather or paper, with a grid of faint lines. A large, dark shadow is cast by the hand and tools onto the surface. The text "La segnatura" and "The mark" is overlaid on the left side of the image.

La segnatura
The mark

“Le misure dell’eccellenza, di riga e compasso.”

“How excellence is measured - with a scratch compass and the craftsman ruler.”

Con il solo aiuto di riga e compasso il “maestro del taglio” traccia a matita il contorno della pelle da tagliare. È un’operazione delicata che richiede la massima attenzione e la stessa cura che si vive nei momenti importanti. E sui cavalletti nel caveau, i pellami giunti da ogni parte del mondo, aspettano senza fretta il loro turno.

With only the help of a ruler and the pair of compasses the “cutting master” traces, with a pencil, the contours of the leather to be cut. It is a delicate operation that requires the utmost attention and the same care that we all give to life’s important moments. And on the stands of storage area, leathers from all over the world are patiently waiting their turn.

Il taglio

The cut

“Movimenti virtuosi e attrezzi senza tempo.”

“Expert movements and timeless tools.”

Per lavorare la pelle e i tessuti e trasformarli in oggetti unici utilizziamo attrezzi dai nomi strani ma dalla grande funzionalità, come il cavaquadro, il rugarolo, il segna bordo, l'ago curvo e la mezzaluna. Strumenti di lavoro del passato ma che usiamo ancora ogni giorno, perchè certe lavorazioni si possono fare solo come vuole la tradizione.

In order to work the leather and fabrics, turning them into one-of-a-kind pieces, we use tools with strange names but great practicality: the edger, the wing divider, the hand skife, as well as the curved leatherwork needle and the round knife. These tools may be from yesteryear, but we still use them every day, because certain craftsmanship can be done solely by following tradition.

Il cucito
The stitch

“I dettagli esprimono più di mille parole.”

“Details are worth more than a thousands words.”

Nelle creazioni Ludovica Mascheroni le cuciture sono forse l'elemento distintivo; cuciture a cavallo, a zig-zag, doppia, a imbastitura o l'elegante tecnica a mano del punto croce.

In the creations by Ludovica Mascheroni, the seams and stitch-work are perhaps the distinctive element – horse stitching, zigzag, double-stitch, basting or the elegant handmade technique of the cross-stitch.

L'incollaggio

The gluing

“Antiche tecniche e sobrietà contemporanee.”

“Bygone craftsmanship and contemporary moderation.”

Le fasi di incollaggio e della successiva rifinitura richiedono una buona dose di esperienza; da questa cura prendono forma collezioni che esprimono bellezza, eleganza e perfezione della linea.

Per raggiungere il massimo nella qualità nei rivestimenti in tessuto dei mobili e ottenere una precisione millimetrica, facciamo “riposare” le fibre per almeno due giorni interi; solo dopo possiamo terminare il nostro prodotto.

Gluing and later finishing require a great deal of experience – this care helps lead collections towards a perfect expression of beauty, elegance and perfect lines and contours. In order to meet the highest level of quality for the furnishing's fabrics - while offering precision down to the last millimeter - we let the fibre “rest” for at least two days. Only once this is done, do we complete our product.

La tappezzeria
The upholstery

“Eleganti e raffinati, nel tempo.”

“Elegance and sophistication, over time.”

Gli imbottiti di Ludovica Mascheroni nascono da un'alta manualità e da materiali di qualità assoluta; le basi delle sedute fatte con cinghie in juta garantiscono una forte tenuta alla flessione e l'ampio utilizzo di vegetale assicurano il comfort nel tempo.

The padded furnishings offered by Ludovica Mascheroni arise from unparalleled manual craftsmanship and absolute quality – the base of the seats is made with jute straps in order to be resistant to bending and the widespread use of natural fibres ensures comfort over time.
