# “Ancora oggi, dopo tanti anni.”

“Even today, after all these years.”

Ancora oggi, dopo tanti anni, nella nostra azienda seguiamo gli insegnamenti che sono il frutto dell'esperienza di ogni giorno, l'essenza di una cultura del lavoro che si impara “con il fare quotidiano”, usando le mani e il cuore, una conoscenza che deve saper rispondere a regole ben precise in termini di qualità e perfezione.

Dopo anni di collaborazioni con le più importanti aziende del mobile, della moda e del design, abbiamo sviluppato la nostra esperienza nell'haute couture, unendo così il nostro know how alle tecniche di lavorazioni tradizionali del mobile. Nelle nostre creazioni usiamo moltissimo gli strumenti più antichi al mondo, le mani; mani che si muovono incessantemente e compiono gesti ritmati, che cuciono con precisione estrema, che incessantemente rivoltano il cuoio o la pelle, ma che portano ad una perfezione che sfiora l'arte.

Mani che prendono ordini da un cuore che vive della passione per il proprio lavoro, volto alla ricerca del bello in assoluto, oggi come ieri. Un insieme di persone unite da un interesse comune, il saper fare, ognuno nel proprio ruolo, per il bene di tutti; uomini e donne che credono nell'azienda e sanno che la propria opera è un tassello indispensabile alla crescita comune e la qualità che offriamo è il frutto della loro qualità interiore.

Proprio come Fabio Mascheroni afferma: “La qualità nasce dai gesti di ognuno di noi” e da quell'atmosfera di serenità che solo un team forte e coeso può trasmettere.

*Even today, after decades of experience, our company is still following and enhancing the expertise and skills we have gained day in and day out. This is the essence of a work culture based on learning from “everyday experience”, using our hands and our hearts, building a knowhow that meets specific rules regarding quality and perfection. After years of work with the world's most important furniture, fashion, and design companies, we have developed our own experience in haute couture, combining our knowhow with traditional furniture workmanship and crafting.*

*Our creations arise from the use of bygone tools – our hands – constantly moving in rhythmic movements, stitching with the utmost precision, flipping the leather and the thick leather over and over again, leading to a level of perfection that comes close to art.*

*These are hands ruled by a heart that lives within a true passion for their work, pursuing absolute beauty, be it yesterday or today. This is also a group of people brought together by a common love – artisan expertise – each with their own role, with the common good as a goal: men and women who believe in this Company and know that their work is a fundamental part of its growth, all aware that the quality we offer is the fruit of their caliber.*

*Just as Fabio Mascheroni highlights, “Quality is based on our each and every action”, and this aura can be expressed only when you have a strong, tight-knit team of great people.*

# Il sommier

## The bed base

Il sommier è l'ideale per coloro che amano il letto semplice e funzionale e l'arredo libero da schemi; il sommier, non avendo la testata, è posizionabile come si vuole nel locale, sotto un grande arazzo oppure sotto la finestra. E' una soluzione molto impiegata negli hotel.

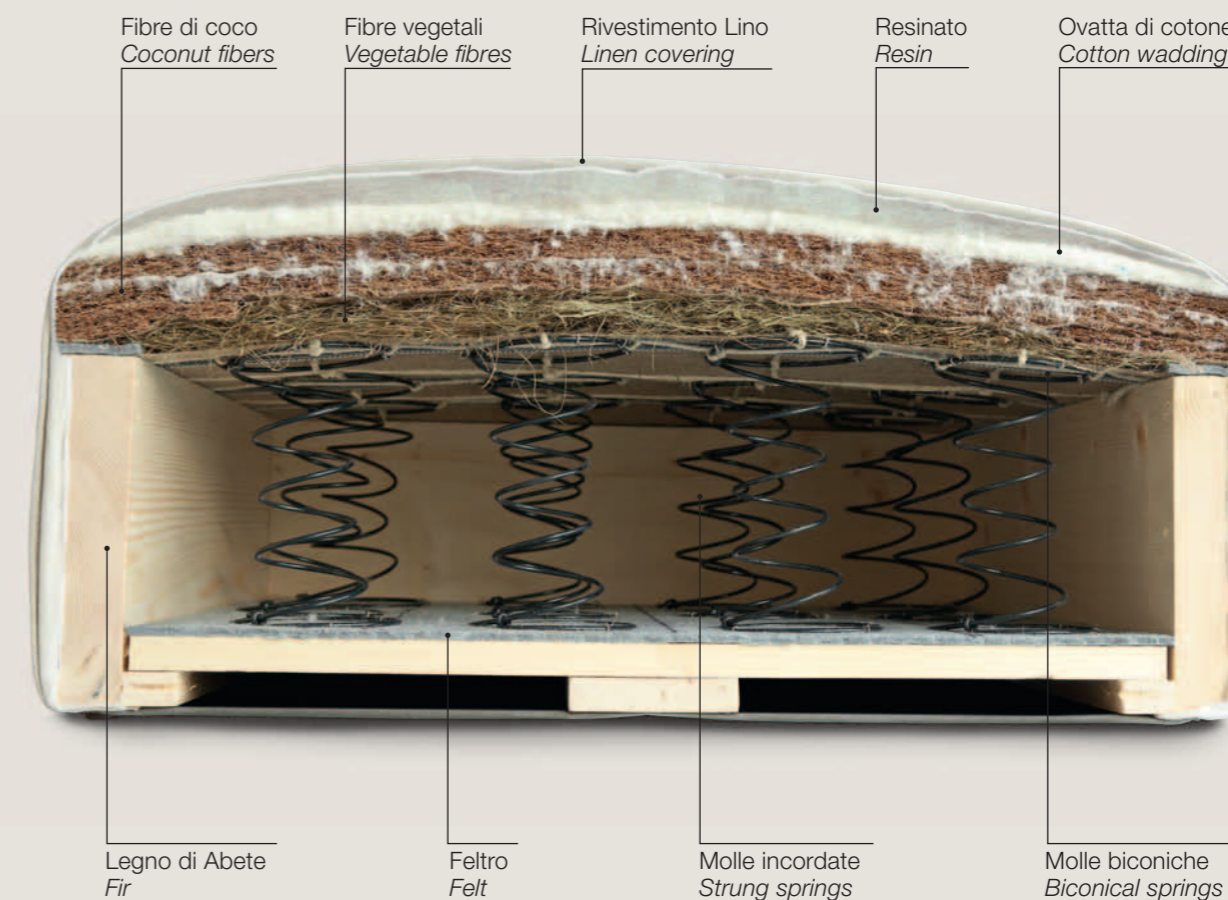

*The bed base is ideal for those who love a simple and practical bed, along with furnishings that break the common mould; the bed base, seeing that it doesn't have a headboard, can be positioned anywhere you want in the room, beneath a large tapestry or even below the window. This is a solution that is used a great deal by hotels.*

La vera pelle è un prodotto naturale; pertanto i segni e le imperfezioni che si riscontrano sulla stessa, ad esempio rughe, venature, cicatrici e spinature, oltre a differenze nel colore non sono da considerarsi difetti, bensì elementi distintivi che ne esaltano la bellezza e la contraddistinguono dalla finta pelle e da altri prodotti artificiali. Le applicazioni della pelle sono molteplici: divani, poltrone, testate per letti, borse, boiserie classiche, rivestimenti per mobili. I colori delle finiture, delle pelli e dei tessuti riportati in questo catalogo, sono suscettibili delle variazioni di stampa: fa fede il campionario dell'azienda. L'azienda si riserva di apportare in qualsiasi momento variazioni ai prodotti (di misure e di estetica) al fine di migliorarne la qualità.

*The real leather is a natural product, therefore the signs and imperfections on its surface, such as wrinkles, veins, scars and scratches as well as color differences are not to be considered defects but typical characteristics that enhance the beauty of the real leather and distinguish it from synthetic leather and other artificial products. Applications of the leathers are various: sofas, chairs, beds, bags, classic boiserie, furniture panel wall. Finishing, leather and fabric colours in the catalogue are not binding and they can be effected by printing. The company sampling only applies. The company reserves the right to modify the products (measurements and design) at any time, in order to enhance their quality.*
